

Alexandria Gazette.

FRIDAY EVENING, SEPT. 27, 1907.

Local Matters.

Sun and Tide Table.

Sun rises tomorrow at 5:52 a. m. and sets at 5:49 p. m. High water at 12:11 a. m. and 12:37 p. m.

Weather Probabilities.

For this section rain tonight and Saturday, warmer tonight; light southerly winds.

MOTOR BOAT RACE.

The motor boats "Kindo" and "Mae," owned respectively by Mr. William E. Moore and Mr. R. Bruce Emerson, which raced last Saturday, will engage in another contest tomorrow afternoon. The race of last Saturday has done much to revive interest in aquatic sports in this city, and has demonstrated to the public generally that Alexandria has produced two boats that are little short of marvels for speed. The race tomorrow will not only reveal the speed, but also the endurance of each boat, for the course is a long one, starting as it does from a stake boat off Prince Street, reaching to Marshall Hall wharf, and returning a distance of about twenty-two miles. Every detail of the race has been arranged, and the crew that crosses the finish line first will carry off the subscription purse of \$100, contributed by business men of this city to promote motor boating. Both boats, it is understood, will be manned by the same crews that raced last Saturday. Mr. Emerson will be represented at the start and finish by Mr. J. H. Miller, in the stake boat "Oiga," and at Marshall Hall wharf he will be seconded by his relative, Mr. Victor Emerson, of Cincinnati, in the fast motor "It," of Washington, which will also carry the official representative of Mr. Moore. Mr. William Bryant has been selected as the official judge. The articles of agreement provide that the start shall be made not later than 3 o'clock, and it is expected the race will be concluded shortly after 4 o'clock.

Both boats have been the subject of much comment since the race of last Saturday, the victor in that race displaying a speed that has never been equaled on the Potomac by a boat of her size. Mr. Emerson's "Mae," while defeated, showed unusual staying powers, and considering the size of the boat and the horsepower of the engine, her speed was remarkable. It is expected that a much larger crowd will be to the river front tomorrow than appeared last Saturday.

SILK MILL.

Through the efforts of the Chamber of Commerce of this city, the hosiery mill property, located at the southwest corner of Wilkes and Pitt streets, has been sold to the Bliss Silk Throwing Company, of Dickson City, Pa., which will install machinery for a silk-throwing mill and begin operations within the next week or two. The company is now operating four mills in Pennsylvania, but it desires to establish branches in the south. A considerable number of names have been received in response to a recent advertisement for operators but many more are desired. The company desires to begin operations with about one hundred operators. Girls and women from fourteen years upward will be employed in this mill. Expert lady teachers will be sent here to teach the force. If sufficient help can be obtained, another mill will be erected on the property of the company, as they have acquired sufficient ground to provide for future expansion of the business. Machinery for this mill has already been shipped, and Mr. Valentine Bliss, president of this company, is expected to reach this city this evening. This industry will fill a long-felt need in this city, as heretofore there have been but limited opportunities for girls and women to secure employment here, and this establishment will ultimately furnish employment for several hundred female operators.

NORTH UNION STREET.

The Southern Railway Company is paving the east side of Union street from Princess to Orconco. Belgian block is being used and a substantial roadway and sidewalk is being constructed. When this work shall have been completed a mud hole will be eliminated which has for many years been a source of annoyance to persons going to or coming from Fishtown. While this improvement is being made, it is time to call attention to the condition of Union street from Cameron to Queen. There are three railroad tracks on that square, and there is now no longer any room for a sidewalk on the east side of the street. There is but a remnant of a narrow pavement on a part of the west side, and that is in bad condition and generally blocked. Should a roadway similar to that being laid two squares north be constructed on the west side of the street from Cameron to Queen conditions would be materially improved.

CAPTAIN FELL INTO HOLD.

Captain Thompson, of the three-masted schooner Cox & Green, now anchored off the shipyard, was the victim of a serious accident last night. He was walking on the deck when he was tripped by a rope and fell head-first into the hold. He was taken from the hold by members of the crew and later brought ashore and placed in the Alexandria Hospital where he was attended by Dr. T. M. Jones. Captain Thompson's head was seriously injured, and was also one of his legs. The Cox & Green is to load railroad ties for Boston.

STREET CAR SERVICE.

The improved street car service to be operated by the Washington, Alexandria and Mount Vernon Railway Company in this city will begin on Tuesday next. As has been stated, the car will make a round trip between the new union passenger station and the foot of King street about every twenty minutes. The company had made arrangements to operate the car the middle of this month, but were unable to do so in consequence of certain work which has been in progress on upper King street.

ORDERS FROM A DISTANCE.

The Emerson steam pump, manufactured at the works in this city, have already attained a world-wide reputation. Orders were received today for pumps from Canada and Cuba, and a mechanical journal published in the East Indies, a copy of which has been received by the patentee, contains a description of the pump, embellished with pictures of the same.

There were no cases for trial in the Police Court this morning.

DEATH OF COL. CRAIGHILL.

Col. Robert Templeton Craighill, aged sixty-four years, for many years a well-known citizen of Lynchburg, died suddenly yesterday after a brief illness of heart disease.

Col. Craighill was a member of Company H, Twelfth Virginia Cavalry, in the Confederate army, and he served until wounded in 1863. After the war he read law and practiced that profession in Lynchburg. He was a member of the firm of Fletcher & Craighill, but in the early '80's retired from practice.

He was thirty-second-degree Mason, having filled all the offices of Marshall Lodge and the local chapter, and was past grand commander of the Virginia Grand Lodge. He was a member of Gov. Holliday's staff, 1877-1881. He was a communicant of Grace Memorial Episcopal Church, a teacher of a Bible class in the Sunday school, and a trustee of the Episcopal Theological Seminary, near Alexandria.

Col. Craighill was a native of Charlottesville, W. Va., where a brother and two sisters live.

In September, 1865, Col. Craighill married Miss Elsie Holton, the adopted daughter of David R. Ely, who, with seven children, survives him.

The South Baltimore Street Car and Foundry Company, at Curtis Bay, has found it necessary to lay off part of its working force. This was due to a falling off in orders for the product. It was said that the company is now turning out only 30 finished cars a day, whereas for more than a year past its daily output has been nearly double this number.

WOODWARD & LOTHROP.

[Editorial in Hartford, Conn., Daily Courant.]

Collector P. Davis Oakley has voluntarily withdrawn the personal to do of \$25,000, given for the proper performance of his duties, and has substituted the bond of a fidelity company for the same amount. This commendable action deserves a passing comment. Mr. Oakley found no difficulty whatever in getting bondmen, but, whoever his bondmen might be, there could be no denying that they had put the collector under a dire personal obligation to the city. It is far more independent and self-respecting to go down into your own pocket for the premium and pay a corporation, chartered for the purpose, for giving its bond for you. This cost him some money, but with that he buys complete personal independence and sets an example that should be widely followed. It is the way to do business; and it is a no reflection upon willing friends to go instead to a company. On the contrary, it is doing them a favor. This bond was written by the
